

You Said	We Did
The site is very comprehensive and well laid out.	-
I read the newsletter every month and like the new layout of the school website	-
We welcome the revised and improved website. It is regularly updated so look at it several times per week. It is easy to navigate, packed with information relevant to our son in S1 and the curriculum. It is an excellent way of communicating with parents and pupils, and feel we are well informed about what is happening in Gryffe High School as a whole and it's achievements. Keep up the great work as the revised website is very much appreciated.	-
Updates are interesting. Could the brief updates start with the date they are posted.	Done
Just to say that the school website seems much easier to navigate and the app is great to get instant messages	-
Very easy to use and navigate. Try to access at least once a month	-
Hi, just a couple of comments about the school website. As a parent of an S1 I wasn't that familiar with the old website but find the revised website easy to navigate and contains useful info. The what's happening this week is particularly helpful. I usually only have a look when the newsletter comes out but good to know it's there. Only problem I have had was in the library section. I was looking for the reading list for reading for gold but it doesn't appear to be there. Hope this is helpful.	We will look into this and update the section.
The new website is a great improvement - much more user friendly! I view the website regularly and value all the hard work required to keep it up to date Keep up the good work!	-
We find the new school website interesting and informative. We enjoy looking at the pictures and reading about what is happening in school. The website is very useful and we look at it at least once a fortnight.	-
I only visit the GHS website once in a while, if I get the chance, or to read newsletters, however I DO use the app which I find is useful for any info or updates.	-
Hi there just had a wee look at the new school newsletter on your website and I must say it does look a lot better the layout is a little bit more professional and colourful. I myself have a look at the school website a couple of times a month just to try and keep on top of dates to remember and interesting events going on within the school. I find it always has plenty of information and interesting updates on various things going on around the school.	-
I look at the school website regularly as it's the only way I can find out what's going on. My two sons give me no information whatsoever. I particularly like the rolling section on this week and next week's highlights.	-
School website very informative and interesting. I have had a good look at your new school website this afternoon and must say I am very impressed. It is informative and user friendly.	-
I always enjoy the school website. I look at it at least once every week to find out what's been happening in the school and will often revisit it in the same week. I particularly find useful "This week's priorities"- good to have an easily accessed reminder of what's on that week. I find the website easy to use and informative. I appreciate the time taken to upload the information so thanks for that. No excuses for not knowing what's going on in the school!	-

I also find it useful to be able to access other information like School Handbook, Calendar, SQA and others. All there on the one site!	
Hi, I rarely go on a laptop so I have the Gryffe app on my phone and check updates there!	-
Overall I like the clean look of the new site, although the hierarchical menus can be a bit annoying at first. To me the front page looked a little disorganised, but I think the idea of having all the latest updates in one place is a good one. It is an improvement, well done!	-
After the letter my daughter brought home dated 5 th March I spent some time looking at the website and wasn't aware that I can get an alert for future newsletters which I've now signed up for – fab for busy working parents.	We will put out more alerts to keep parents up to date.
Can't say if it's an improvement as this is probably the most I've looked at it but I was impressed with the mix of items on here and liked the layout and from now on I'll definitely be looking at this on a more regular basis.	Thank you
I have been reading the Gryffe website once again and catching up with all the news and success of Gryffe. Well done to all. The new website is great and much easier to access and read. Over the winter especially I found the brief updates section particularly helpful re weather in Houston and if there was to be a school closure. It is much easier to navigate now and I can find the information I need much quicker	-

Thank you to all who took the time to make a reply to our request for feedback.
