Dear Parent/Carer,

Re: Childhood Infectious Diseases (Measles, Chicken Pox and Shingles)

I am writing to you to ask for your support in an important matter.

One of our pupils is receiving medical treatment that puts them at greater risk from Measles, Chicken Pox and Shingles. If our pupil comes into direct contact with anyone suffering from these conditions then they will require protection against them. This antibiotic treatment needs administered within 72 hours of contact.

Therefore, we would ask that if your child develops Measles, Chicken Pox or Shingles that you inform the school office **immediately** so that we can take the appropriate action.

Your child is not at any risk from this situation however, the health of our pupil does depend on your cooperation in this important matter.

Yours Sincerely

Mr Colin Johnson
Head Teacher
